

PRAKASH M

Software Engineer – IT Systems

prakashm23032003@gmail.com — 6379320774 — linkedin.com/prakash3 — github.com/Prakash3

Summary

Detail-oriented Software Engineer with a solid foundation in Java and backend development, and a keen interest in developing and improving business systems. Experienced in building practical applications and optimizing performance through efficient coding and database design. Eager to apply technical skills to real-world processes, contribute to system automation, and grow in areas like data handling and enterprise IT systems.

Education

SRM Institute of Science and Technology

June 2024 – April 2026

Master of Computer Applications

CGPA: 9.3

King Nandhavanam College of Arts and Science Bengaluru

April 2023

Bachelor of Computer Applications

CGPA: 8.2

Internship

Top Tech Developers

May 2025

Software Developer Intern

- Contributed to application debugging, performance optimization, and feature implementation in a full-stack development environment
- Improved application performance by 30% by debugging backend APIs and optimizing database queries
- Collaborated with cross-functional team members to implement features and resolve issues within deadlines
- Worked with Git workflows and participated in code reviews

Projects

Jiffykart – Full Stack E-Commerce System | Java, Spring Boot, MySQL

- Designed and implemented REST APIs for real-world use cases like order management and user workflows
- Implemented **authentication (JWT)** and role-based authorization for secure access
- Applied **layered architecture** (Controller → Service → Repository) for modular and maintainable code
- Optimized MySQL queries and indexing to improve performance and reduce response time
- Implemented proper **error handling** and validation for robust API responses

Skills Basic understanding of data analysis and system automation

Programming: Java

Backend: Spring Boot, REST API Design, JWT Authentication

Database: MySQL

Core Concepts: OOP, Data Structures & Algorithms, SOLID Principles

Tools: Git, GitHub, Postman, VS Code, Eclipse

Soft Skills: Communication, Team Collaboration, Attention to Detail, Willingness to Learn New Technologies

Certifications

Full Stack Development (Java, SQL, DSA) — Greens Technology

April 2024

Data Structures and Algorithms using Java — Great Learning

March 2025

Achievements

- Solved **300+** Data Structures and Algorithms problems on LeetCode, strengthening problem-solving and coding skills
