Summary

Java Developer with strong foundation in **Java, Data Structures & Algorithms, Object-Oriented** and Database Management Systems. Experienced in developing scalable web applications using Java and **MySQL**. Demonstrated ability to write clean, optimized code and collaborate in agile environments. Passionate about building high-quality software solutions and growing as a **Software Development Engineer (SDE)**.

Education

SRM Institute of Science And Technology	June 2024 – April 2026
Master of Computer Applications	
CGPA: 9.3	
King Nandivarman College of Arts and Science	April 2023
Bachelor of Computer Applications	
CGPA: 8.2	

Internship

Top Tech Developers	May 2025
Software Developer Intern	
- Developed a responsive web application using HTML, CSS, and JavaScript, improving overall performance by 30% through optimized logic and debugging - Participated in code reviews, followed coding standards, and applied feedback to improve code quality and maintainability. - Collaborated with team members to understand requirements, fix defects, and deliver features within defined timelines.	

Projects

E-Commerce Backend System — Java MySQL
- Designed and developed a scalable backend system to manage users, products, and orders. - Built REST ful APIs supporting CRUD operations and modular service logic. - Implemented secure authentication flows and robust error handling. - Integrated a real-time email notification system for order confirmations and status updates. - Focused on performance, reliability, and clean architecture, closely mirroring production-grade systems.

Skills

Programming:	Database :	Core Concepts:	Soft Skills:
Java, JavaScript	MySQL	OOP, DSA, SOLID Principles	Communication, Collaboration, Willingness to Learn, Fast Learner

Certifications

Full Stack Development (Java, SQL,DSA)	April-2024
Greens Technology	
Data Structure and Algorithms using Java	March-2025
Great Learning
